(LOCATION: Tivoli Congress Hall, Arni Magnussons Gade 2, 1577 Copenhagen)

Environmental justice and economic justice go hand-in-hand. The climate crisis is not solely an environmental issue – it disproportionately affects the most vulnerable communities. It will not be possible to build support for climate action unless it is clear that no one will be left behind as a result. This plenary aims to show that addressing inequality and the climate crisis together can have an immediate, tangible impact on people's lives, from green jobs and growth, to active, happier lives and cleaner air and water.
