SUPPORT FOR THE IMPLEMENTATION OF THE ENERGY SHOWCASE AND BUSINESS CASE TOOLKIT

Request for Proposals

1. Introduction

1.1 About C40 Cities Finance Facility

The C40 Cities Finance Facility (CFF) facilitates access to finance for cities’ infrastructure projects that address the climate crisis and support a green and just recovery. It does this by providing technical assistance to develop cities’ priorities into finance-ready project proposals, by supporting cities in linking them with the most suitable financial options and by enabling replication and upscaling of these projects for further impact. Although the initiative is implemented jointly with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, this RFP will be managed by C40. The CFF is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ), the Government of the United Kingdom, the Agence Française de Développement (AFD), and USAID. The initiative is implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH and the C40 Cities Climate Leadership Group (C40). To learn more about the work of the CFF and the cities we partner with, please visit our website or LinkedIn. Although the initiative is implemented jointly with Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, this RFP will be contracted and primarily managed by C40.

1.2 About C40 Cities

C40 is a network of nearly 100 mayors of the world’s leading cities working to deliver the urgent action needed right now to confront the climate crisis and create a future where everyone, everywhere, can thrive. Mayors of C40 cities are committed to using a science-based and people-focused approach to help the world limit global heating to 1.5°C and build healthy, equitable and resilient communities. We work alongside a broad coalition of representatives from labour, business, the youth climate movement and civil society to support mayors to halve emissions by 2030 and help phase out fossil use while increasing urban climate resilience and equity.

The current co-chairs of C40 are Mayor Sadiq Khan of London, United Kingdom, and Mayor Yvonne Aki-Sawyerr of Freetown, Sierra Leone; three-term Mayor of New York City Michael R. Bloomberg serves as President of the Board. C40’s work is made possible by
our three strategic funders: Bloomberg Philanthropies, Children’s Investment Fund Foundation and Realdania.

To learn more about the work of C40 and our cities, please visit our website or follow us on X, Instagram, Facebook and LinkedIn.

2. Background to the Assignment

Since its launch in 2015, the C40 Cities Finance Facility (CFF) has supported 10 energy projects from nine partner cities through technical assistance, capacity development, and project advisory support - see Annex 3 for details. Aside from developing finance-ready projects, the partner cities’ engagement with the CFF also resulted in policies, structures, and approaches to facilitate investments in renewable energy and energy efficiency. These innovations could be replicated or adopted by national and regional actors to scale up impact within the partner cities’ countries.

The CFF has built a global network of financial institutions and partner organisations that have complemented the CFF’s technical assistance and capacity development activities. Many have also provided knowledge sharing, peer-to-peer learning, and other opportunities to promote partner cities’ projects and leadership on climate action.

To mark the closure of its third phase, the CFF aims to communicate its successful support for cities’ energy projects and showcase its approach and success stories to a larger audience. In doing so, it will increase interest from national and regional actors to upscale and institutionalise best practices and climate actions and link current and previous partner cities to additional support from relevant organisations.

3. Details of the Assignment

The CFF is looking for a service provider to support (1) the delivery of an Energy Showcase and (2) develop a Business Case Toolkit (see below for details).

In supporting nine cities across two phases, the CFF and its partner cities have developed governance and financial models and gathered insights about how cities can prepare a successful energy project.

1. The Energy Showcase is designed as a conference for CFF partner cities to present their projects and engage other city officials and representatives from national and regional offices, financial institutions, and civil society. A total of 75-100 participants are expected, including CFF, C40, and GIZ staff. Session topics will include global and regional themes and offer opportunities for partner cities and external partners to engage one another on sectoral issues and solutions. The Energy Showcase is foreseen to be delivered at the end of September in Mumbai, India (dates to be confirmed). A proposed agenda can be found in Annex 1: Energy Showcase Agenda.
2. The CFF envisions the Business Case Toolkit to be an implementation guide that will be published during the Energy Showcase. It will detail the various approaches and lenses CFF partner cities have used to access financing for their energy projects and create social and political buy-in. The document would contain the tools used in CFF energy projects and include cases from CFF partner cities that illustrate their use. Relevant examples of the C40 and the CFF’s previous knowledge products are listed in section 4.2. The toolkit must be a PDF that will be uploaded to the CFF website and the C40 Knowledge Hub.

The consultant can propose changes to the content and design of the Energy Showcase sessions and Business Case Toolkit, so long as they meet the following objectives:

1. Showcase cities’ efforts to reduce their emissions through energy efficiency and renewable energy initiatives;
2. Establish national, regional and global partnerships between relevant actors in energy and finance for further support; and,
3. Encourage national and international actors in energy and finance to adopt lessons learned, policies, and programmes from cities’ energy projects.

The primary target audiences for the Energy Showcase and Business Case Toolkit are:

- Middle-ranking to senior city officials from relevant technical departments.
- Policymakers, senior officers, and elected officials from national government offices, intergovernmental organisations, and regional political and economic unions whose functions are related to city relations, climate finance, and energy.
- Policymakers and practitioners from financial institutions, civil society, and non-governmental organisations whose functions are related to city relations, climate finance, and energy.
- Existing government donors (FCDO (UK); BMZ (Germany); USAID (United States) AFD (France)), and potential new donors.

4. Activities and Deliverables

4.1 Activities and Deliverables

The winning bidder(s) will be expected to lead the development of the content of the Energy Showcase and Business Case Toolkit. The outputs include:

Activity 1: Initial Project Assessment

The consultant(s) will conduct an initial project assessment to familiarise themselves with the CFF energy projects and the materials available (e.g., technical and financial studies, reports datasets, etc.). They will also establish the project management framework (e.g., processes and norms for review, feedback, communication, reporting, etc.) in consultation with the project management team. They will then prepare a
detailed work plan outlining the activities they will undertake for the Energy Showcase and Business Case Toolkit, including the proposed time frame for review and feedback.

**Deliverable 1: Detailed Work Plan**
Deadline: 1 July 2024

**ENERGY SHOWCASE**

**Activity 2: Agenda Development**

The consultants will support the CFF in preparing the conference agenda by identifying opportunities to scale up the projects’ impacts, using desk research and consultations with CFF City Nucleus Teams on the regulatory and financial landscapes of the CFF partner cities and their respective regions. The agenda’s content must include session objectives, activities (e.g., presenter-led discussions, workshops, roundtable discussions, etc.) that align with the partner cities’ upscaling plans or reform agendas.

Together with the CFF, they will also map national agencies, civil society or nongovernmental organisations, and financial institutions that can support the CFF partner cities, including possible contacts within the organisations.

As part of developing the agenda, the consultant(s) must also identify any facilitation needs for the sessions and prepare a facilitator guide that outlines the activity/activities, roles of the facilitators, and materials needed for the activities. The consultant may refer to the draft agenda in Annex 1.

**Deliverable 2.1: List of External Partners (i.e., national government agencies, civil society or nongovernmental organisations, and financial institutions)**

**Deliverable 2.2: Detailed Energy Showcase Agenda**

**Deliverable 2.3: Facilitation Needs and Facilitator Guide**
Deadline: 2 August 2024

**Activity 3: Event Preparation**

The consultant(s) will support the CFF in preparing the content of the event and making logistical arrangements. They will be responsible for compiling presentations from CFF partner cities and external partners and slides with the agenda, speakers’ names, and session titles into a main deck. The CFF will take the lead in coordinating with the presenters for the slides and share them with the consultant(s).

In addition, the consultant(s) will work with the CFF team to produce a slide deck about the CFF, its work in the energy sector, and the projects in its portfolio. In developing the slides, they will consult the CFF communications working group on the key messages that must be included. Aside from the key messages, the CFF will also provide the presentation templates, logos, photos, and other relevant materials.
Lastly, the consultant(s) will provide logistical support such as booking the venue, flights, visas, accommodation, food and beverage, translators (if required), and ground transportation to and from the airport and to and from any site visits (if required). These costs must not be included in the proposal as the CFF will budget for these costs separately.

Booking of travel and accommodation must be done with approval from C40’s operational team and in compliance with the GIZ Specific Travel and Expenses Policy and Guidance for C40 staff and delegates. Bookings should be made directly with the airlines, including integration with C40’s travel risk management company, ISOS, to ensure safety and insurance coverage. If an integration cannot be built, then the consultant will need to work with ISOS to input all trips manually.

Additionally, the selected airline must meet the following criteria (consultants may refer to AirlineRatings): an overall ‘Safety Rating’ of at least 7 stars; an IATA Operational Safety Audit certification (IOSA) rating of at least 3 stars; and, a green tick on the International Civil Aviation Organisation (ICAO) Country Audit. The selected hotel must be located in a safe, accessible area close to emergency services and public transportation.

All procurement should follow the GIZ procurement requirements below:

- Submit proof as evidence of fulfilling GIZ Annex 4a (Award Procedure/Procurement Guidelines) and GIZ Annex 4b (Specimen Documentation of Contract Awards). This includes obtaining at least 3 quotes from different potential service providers, based on the requirements provided by C40.
- Draft the logistical partner details and scope of work using the C40’s Service Provider Agreement template for C40’s review and signature.
- Coordinate the collection and submission of C40 Supplier Onboarding Form and any other procurement coordination requirements from C40.

**Deliverable 3.1: CFF Slide Deck**
**Deliverable 3.2: Main Slide Deck of the Conference**
**Deliverable 3.3: ONSITE Logistical Support (e.g., ground transportation, venue, accommodations, food and beverage)**

Deadline: 16 September 2024

**Activity 4: Event Support**

During the implementation of the conference, the consultant(s) will be expected to provide on-ground logistical support such as the provision of a master of ceremonies and session moderators (if required) and coordination with local suppliers (e.g., venue’s technicians, hotel administrators, caterers, drivers, translators, etc.).

The consultant(s) will also be responsible for note-taking during the sessions and providing photo and video documentation of the event. Video documentation will include at least 10 interviews with participating cities and external partners. After each
day of the conference, they will upload their notes and low-resolution copies of the photos to a folder shared by the CFF.

**Deliverable 4.1: In-Event Logistical Support (master of ceremonies, coordination with local suppliers)**  
**Deliverable 4.2: Documentation of Sessions**  
**Deliverable 4.3: Photo summary or daily highlights in low resolution**  
Deadline: 30 September 2024

**Activity 5: Documentation and Post-Event Support**

After the event, the consultant(s) will submit a report (around 10 pages excluding annexes) with the conference highlights, key outcomes, participants’ feedback, lessons learned, and proposed follow-up actions. Before finalising the report, the drafts will undergo two rounds of review.

The consultants will also compile the high-resolution photos and lightly-edited videos (i.e., with questions, fillers, and errors cut out) from the event and share them with the CFF through a cloud repository.

**Deliverable 5.1: Documentation Report**  
**Deliverable 5.2: Photos and videos in high resolution**  
Deadline: 11 October 2024

**BUSINESS CASE TOOLKIT**

**Activity 6: Desktop Review**

The consultant(s) will conduct desk research on the past and current CFF energy projects and identified innovations listed in Annex 2: Business Case Toolkit Content to understand the nature of the projects, recommendations for financing and implementing them, challenges encountered, and lessons learned. For their desktop review, the consultants can refer to the studies and other materials uploaded on the CFF’s website and those in the CFF’s archive (these materials will be shared as part of the onboarding process).

After the review, the consultant(s) will submit a summary report of their desktop review. The document should include a proposed outline, list of cities and CFF/C40/GIZ staff to be interviewed, interview questions, and the design or layout references for the report. The CFF will share its template for reports as part of the onboarding process.

**Deliverable 6.1: Summary report of the desktop review, key findings, and case studies**  
**Deliverable 6.2: Proposed outline and design or layout references**  
**Deliverable 6.3: List of cities and CFF/C40/GIZ staff to be interviewed and interview questions**  
Deadline: 29 July 2024

**Activity 7: Documentation and Development of Case Studies**
Once the proposed outline, list of cities, and interview questions are approved, the consultant(s) will begin interviews with the relevant officials and staff from five to six cities. The CFF will facilitate outreach to the cities and staff. During this process, the consultants must keep written, audio, and video (where applicable) records of their interviews.

The consultants will also gather photos and videos of the sites and city officials if these materials are not already available. These materials will be turned over to the CFF using a cloud repository or shared folder.

After gathering data and conducting interviews, the consultants will draft the case studies from the cities and prepare an executive summary and pilot chapter for the CFF’s review. The pilot chapter must include the description and guide to using the tool or approach and the case study(ies) illustrating how it was used.

**Deliverable 7.1: Draft case studies (content only)**  
**Deliverable 7.2: Executive Summary and pilot chapter for review of the design**  
**Deliverable 7.3: Photos, videos, and audio recordings from interviews**  
Deadline: 9 August 2024

**Activity 8: Preparation of the Business Case Toolkit**

The consultants will use the agreed-upon outline, design, and comments on the draft Executive Summary, pilot chapter, and case studies to prepare the Business Case Toolkit (around 20 to 30 pages). The consultant(s) will first share the write-up of the toolkit so the CFF can review the content before submitting the copy with the layout, graphics, and other visual elements. Aside from using the CFF template for reports, the consultants are also expected to follow the CFF’s brand guidelines, which will be shared during the onboarding. Two rounds of review are expected for the finalised document.

Given the scope of this activity, the CFF expects the consultant to structure the development of the resource and required reviews in a staggered manner.

**Deliverable 8.1: Draft Business Case Toolkit (content only)**  
**Deliverable 8.2: Draft Business Case Toolkit (designed)**  
**Deliverable 8.3: Completed Business Case Toolkit**  
Deadline: 6 September 2024

**Activity 9: Publication of the Business Case Toolkit**

As part of the dissemination of the Business Case Toolkit, the consultant(s) will prepare a minimum of 75 printed copies, which will be distributed during the Energy Showcase.

**Deliverable 9.1: Printed Copies of the Business Case Toolkit**  
Deadline: 16 September 2024

</table>
| **Phase 2** | **Solar Energy on a Deactivated Landfill and Bus Stations**  
Curitiba | The CFF supported the city of Curitiba to prepare the Curitiba More Energy project. It entails the installation of Solar Photovoltaic (PV) on a deactivated landfill and bus stations. By incentivising the generation and use of clean energy, the project increases the municipality’s renewable energy portfolio and decreases GHG emissions.  
In response to a lack of available land, the CFF helped the city to verify the suitability of solar PV systems, and assessed the legal, financial, and technical feasibility of these sites. |
| **Carioca Solarium – Solar Energy on a Deactivated Landfill**  
Rio de Janeiro | In response to a lack of available land for the installation of solar panels, the CFF supported the city of Rio de Janeiro to implement solar photovoltaic (PV) systems on a deactivated landfill. The project was implemented in 2021 and 2022. |
| **Solarising Public School Rooftops in Quezon City**  
Quezon City | The Quezon City (QC) Government aspires to build a liveable and green city for its ~3 million inhabitants. With the support of the CFF, the QC Government has identified financing for the installation of solar PV systems on 50 public school rooftops throughout the city.  
The project will help reduce GHG emission by minimizing consumption of electricity from fossil fuelled power plants. It will also result in savings for the schools through lower electricity bills, which in turn can be used to fund educational projects and equipment. |
| **Phase 3** | **Improving energy performance of hospitals for a green and just recovery**  
Jakarta | The City of Jakarta, working with the CFF, will deploy rooftop solar panels, alongside energy efficiency measures, in 28 public hospitals. This project aims to reduce the reliance of public hospitals in Jakarta on fossil fuels, which currently provide more than 92% of the city’s energy. By using clean energy sources, this project will reduce greenhouse gas emissions and decrease energy costs. |
